

# MILAD AHMADIPOUR

Multitask Developer

## About

I was born in 1990 in Iran. I have grown up and lived with computers, and computer has been my best friend. I did most of my work with PCs, and my interest and curiosity to that increase day by day. So, I used many software for my experience in high school. I have always been interested in Network and Programming.

When I was in University, I was a member of Robotic Team of University of Boushehr and I have the 23rd place in RoboCup Iran Open, and at the same time I was lecturer at University of Bushehr and I also know about 15 different computer languages, and at the moment I use 5 of them daily.
